Dear Roger and Trustees of the Harry Birrell Scholarship Trust

On behalf of St Andrew's College and The Diocesan School for Girls, please accept our sincere thanks for your generous donations towards the 2016 Bursaries and Scholarships Programme and Pocket Money Fund. We are deeply grateful for your continued support and commitment to our schools, and to many of the other educational institutions in the Grahamstown community.

St Andrew's College and DSG have played significant roles in forming world-class leaders and it is our intention to continue to nurture young men and women who will take their rightful place in a continuously evolving and competitive society. We are committed to offering students who show academic and leadership potential the opportunity of an outstanding education by providing financial support to many well-deserving individuals who, through historical disadvantage, would not otherwise be able to attend College and DSG. Your generosity will enable us to continue to change the lives of many individuals, their families and their communities.

Please accept our sincere thanks and appreciation.

Yours sincerely
